40. GTP Annual Conference

27.-29. May 2022
University Hospital Basel

Integrating General Paediatrics in Health Systems of Resource Limited Settings

Scope of the Speciality and Needs Assessment on Staffing and Logistics

➔ www.globalchildhealth.de/40-gtp-jahrestagung-2022/

Welcome

We would like to cordially invite you to the 40th Annual Conference of the *German Society of Tropical Paediatrics and International Child Health (GTP)*.

The meeting will be held for the first time in Switzerland from the 27th to 29th May 2022 at the Teaching and Research Centre of the University Hospital Basel.

We have chosen the topic of "*Integrating General Paediatrics in health Systems of Resource Limited Settings*" in order to bring attention to evidently insufficient structured health services in respect of general paediatrics in many communities.

During a variety of interactive workshops, vivid lectures, poster walks and challenging exchange over coffee, we hope to meet your interest in the subject and enable sustainable networking and opening up opportunities for collaboration.

We wish to facilitate conference attendance for students and health personal of all cadres through reduced registration fees and couch-surfing for students.

For our traditional "GTP Annual Meeting Saturday Night Get Together" we booked the Atlantis in Basel old Town for dinner, with animating **live music** - not only for listening!

Looking forward to meet you all for this stimulating and enriching event in a friendly and welcoming atmosphere.

Dr. Gudrun Jäger and Dr. Charlotte Adamczick with the Organizing Committee

Program

Friday afternoon:

Workshops on:
ultrasound in resource limited settings, climate change, surgery, how (not) to work abroad, post-colonial development politics (young GTP), ETAT+

Friday evening:
